Subject: RE: complaint - Mead Cattle, Mead NE - burning off old seed corn

A quick google search suggests Mead Cattle may be associated with ethanol plant. Please let me know if I should call him back.

Very Respectfully,

Thanks Bob,

I am copying Joe T. since this matter looks like it is compliance related.

Joe, do we need to contact NDEE – Todd or someone on his staff?

Thanks,

Pat

Subject: complaint - Mead Cattle, Mead NE - burning off old seed corn

Good morning Pat,

I received voice mail this morning from:

Ex. 6 Personal Privacy (PP)

Seeking assistance for
Problem with a business west of his home
Mead Cattle, Mead NE - burning off old seed corn
Smell horrific
Talked to someone last year – said congress/someone might stop stockpiling
Probably 5 acres rotting seed corn dumping in green piles
Company started burning about a year ago
Saunders County not doing anything - blind eye since beef cattle
Smell horrific, many residents complaining - Not manure smell

1 Not healthy
2 property values going down
Big company doing whatever they want
State says watching them closely

I will forward you voice message. Does not appear to involve Indian country.

Very Respectfully,

Bob Webber | Environmental Engineer | Air Permitting & Standards Branch | U.S. EPA Region 7 | 11201
